**Subject:** K"zoo River Area 3 SRI - Pine Creek Sediment Samples  
**Date:** Monday, August 12, 2013 3:27:47 PM

---

All

Field work to collect sediment samples from the Pine Creek area is scheduled for Wednesday, August 21, 2013. The 10-day weather forecast looks favorable for this schedule – dry, warm weather for the days leading up to August 21<sup>st</sup>. Pine Creek is presently drawn down for weed control purposes. At the time of the other Area 3 sampling in July, the Pine Creek sediments were still too wet – and soft, to stand on. We plan to complete the remaining scope of work with four people in one long day.

Please feel free to call if you have any questions or comments.

Thank You

Anita Emery-DeVisser  
Project Manager/Senior Scientist
